
Tour to Hugo October 27-29, 2017

This year's Fall Tour is taking us down to the southeast corner of Oklahoma to the town of Hugo. Hugo has a history in lumber and as a railroad town but is know still today as a town where traveling circuses winter. For years, various circuses would travel around America with their huge tents offering shows of animals, acrobats and clowns plus much, much more. The people of Hugo really made the circus people feel at home and several circuses established roots in Hugo during the non-traveling winter months.

In 1993, one circus established the Endangered Ark Foundation as a home for some of the older elephants. We will visit on Saturday morning this Endangered Ark Foundation which offers a retirement home to the second largest herd of Asian elephants in North America. We will experience elephants in a very intimate and close up environment while the staff delivers an interactive educational presentation.

Further details will be provided on our Hugo Fall Tour itinerary as more info is available, but hotel reservations can now be made. Refer to attached information sheet for details. Ken and Tory Brust and Kent and Jeanne Washburn are the tour leaders.
